Bath Panels

Product Overview

Bath panels are essential components that help to conceal the underside of the bath and any unsightly fixings and plumbing. Additionally, they complete the finish of a new bath, or they can even refresh an old one.

There are four low maintenance options available, made from a variety of materials, to suit preference, budget and installation type.

Features and Benefits:

PVC Bath Panel

- + Flat white in colour
- + Available in two lengths - 1700mm and 700mm
- + Suitable to be used for bath height of 510mm
- + PVC panels can be used with a bath panel corner trim (available separately) which gives a seamless finish when fitting two panels together
- + Easy to install
- + Water resistant

Marlbrook Bath Panel

- + Marlbrook panels match Marlbrook gloss white wallboard
- + Solid reinforced plywood construction with the highest quality finish
- + Available in two lengths - 1700mm and 700mm
- + Suitable to be used for bath height of 510mm
- + Easy to trim and install
- + Water resistant
- + Marlbrook panels can be used with a bath panel corner trim (available separately) which gives a seamless finish when fitting two panels together

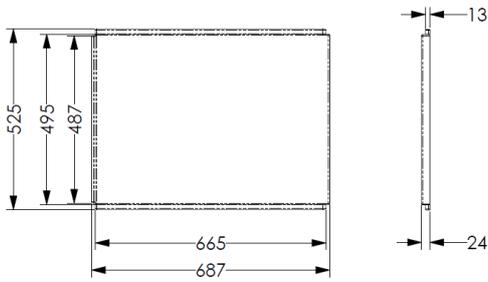

Acrylic Single Skin Bath Panel

- + White shiny rolled finish
- + Available in two lengths - 1700mm and 700mm
- + Suitable to be used for bath height of 510mm
- + Durable finish does not show scratches and scuffs easily
- + Easy to install, with some flexibility to panel
- + Water resistant

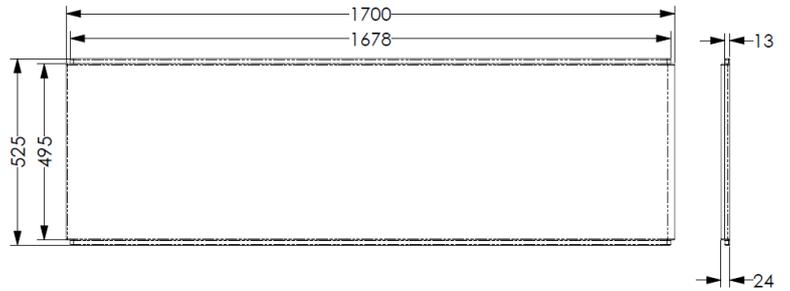

Acrylic Double Skin Bath Panel

- + Shiny white rolled finish
- + Available in two lengths - 1700mm and 700mm
- + Suitable to be used for bath height of 510mm
- + Durable finish does not show scratches and scuffs easily
- + Easy to install, with some flexibility to panel
- + Water resistant
- + Reinforced construction provides additional rigidity and longevity
