

Opulence Corner Top Bifold Shower Enclosure

Product Overview

The unique characteristics of an Opulence Top Bifold Stable Door shower enclosure support multigenerational living, catering for different generations with different needs who share the same home & bathroom facilities.

At 1900mm high, top bifold stable door shower enclosures are suitable for corner locations in a wet room or with an easy access shower tray.

Features & Benefits

- + Square shower enclosures or rectangular shower enclosures create a shower area based on the size you need, with some different options available depending on your requirements which are made to order
- + Supports multigenerational living, but can be used by all members of the household
- + Top bifold stable shower door section opens independently should showering assistance be required for a child or an elderly relative
- + Twin bifold stable door shower enclosures offer greater access to the shower area
- + Bottom door height at 850mm high, so bifold stable door clears standard height pedestal wash basins when opened
- + Aluminium, satin chrome polished wall profiles
- + Coved wall profile will accommodate coved vinyl flooring or use the Square profile for tiled floor or shower tray use (please state when ordering)
- + Solid brass, chrome plated, easy grip door handles & 180° rise & fall hinges
- + Magnetic door closing
- + Can be used on any easy access shower tray, wet room floor former or a shower tray with a 40mm flat area within the AKW & Contour range
