

Walk-In & Assistive Baths

Oulton walk in bath 1700x700mm

The Oulton walk in baths design features a white step through, low threshold door with easy action lever latch. Simply step inside, push the door shut and close the latch.

To open the door after bathing, wait for the bath to empty and push the lever to open the door. A sturdy seal ensures the door is watertight.

Oulton walk in bath is suitable when:

- + Conventional full length bathing is preferred to seated bathing
- + Replacing a conventional bath or the bathroom is of a larger size
- + The user is able to lower and raise themselves without assistance

Features & Benefits

- + Inward opening door
- + Effortless, easy to close latch mechanism
- + Slip resistant base
- + Low step in threshold: 165mm minimum
- + Internal depth: 380mm
- + Dual clicker wastes for faster drainage
- + 1 year warranty, parts & labour
- + 5 year warranty parts only
- + End panel available, please enquire when ordering
- + Handed
- + Taps not supplied

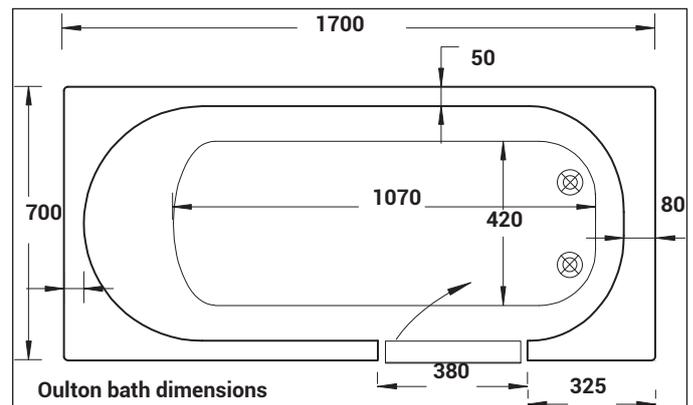

Deep Soaker Corner Baths

Compact, deep soaker, walk in corner baths are available in left or right handed door options offering an easy access, walk in bathing solution. Integrated seats ensure a comfortable upright position for the bather.

With a low threshold, the user can simply step into a walk in corner bath, close the door and take a seat.

Ropox Adjustable Height Bath

1700x750mm

When caring for users with mobility disabilities, an adjustable height bathtub makes bathing easier and relieves the carer from heavy lifting. When assisting the user to access the bath, the bathtub can be lowered and when assistance is needed for bathing, the bathtub can be raised to a more comfortable height for both user and carer alike.

Shakerley, right-hand door, left hand seat
