

On/Off Shower Head

Product Overview

The On/Off Shower Head has been designed to support care-assisted showering and the reduction in water and energy usage, by enabling the water flow to be paused while shampooing and/or washing at the press of a button.

Compatible with all AKW Mixer Showers and available as an optional extra.

Features & Benefits

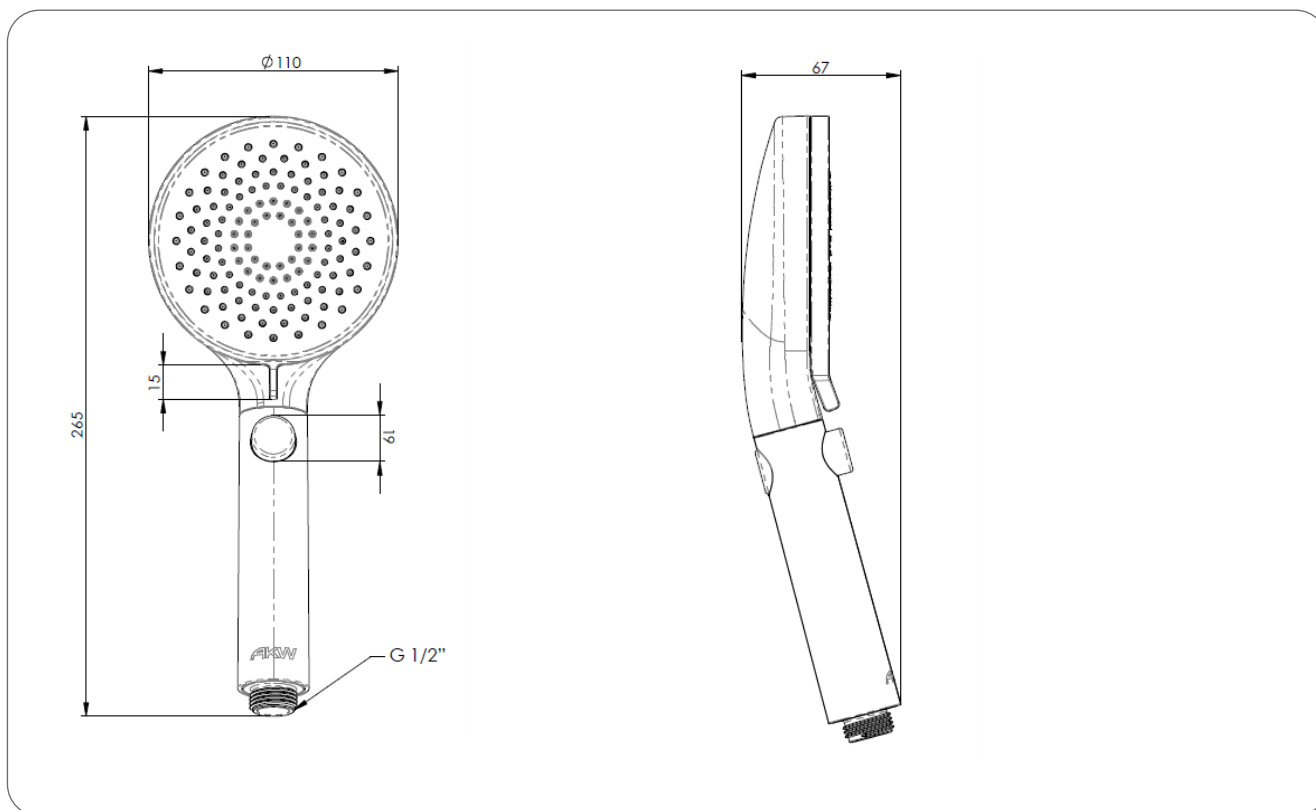

- + Convenient and easy-to-use On/Off push button located on handset handle opens and closes the water flow, a useful feature when offering care-assisted showering
- + Efficiently supports with the reduction of water and energy, as the flow of water can be paused while the user or carer attends to washing, and then easily resumed when water is needed without having to turn off the water at the valve
- + A small amount of water will continue to flow when the on/off button is used to pause the flow, this indicates to the user that the shower is still running, with the flow only completely stopping when the shower is switched off
- + Nozzles can be rubbed clean for easy cleaning and limescale removal
- + Features 3 modes / spray patterns - Fine, Bubble, Jet - which can be easily changed
- + Compatible with all AKW mixer showers
- + Stylish chrome finish to complement mixer shower accessories
- + 5-year warranty for peace of mind
